<b>Abstract</b>	<p>The project “SEC2022-OBS1: Establish a framework for scientific observation of SIOFA fisheries” aims to ensure that scientific observers working in SIOFA fisheries operate using a consistent set of standards for observation and measurement.</p> <p>This paper presents Annex 3 of the SIOFA SEX2022-OBS1 draft project report and focuses on the Draft SIOFA Scientific Observer Cruise report.</p> <p>The cruise report is for use by scientific observers to provide a summary of information from their cruise in a more flexible format than in the logbooks. It is intended to allow observers to provide additional details that are not included in the observer logbook or that assists with the interpretation of the data in the logbook.</p>
